

Introducing

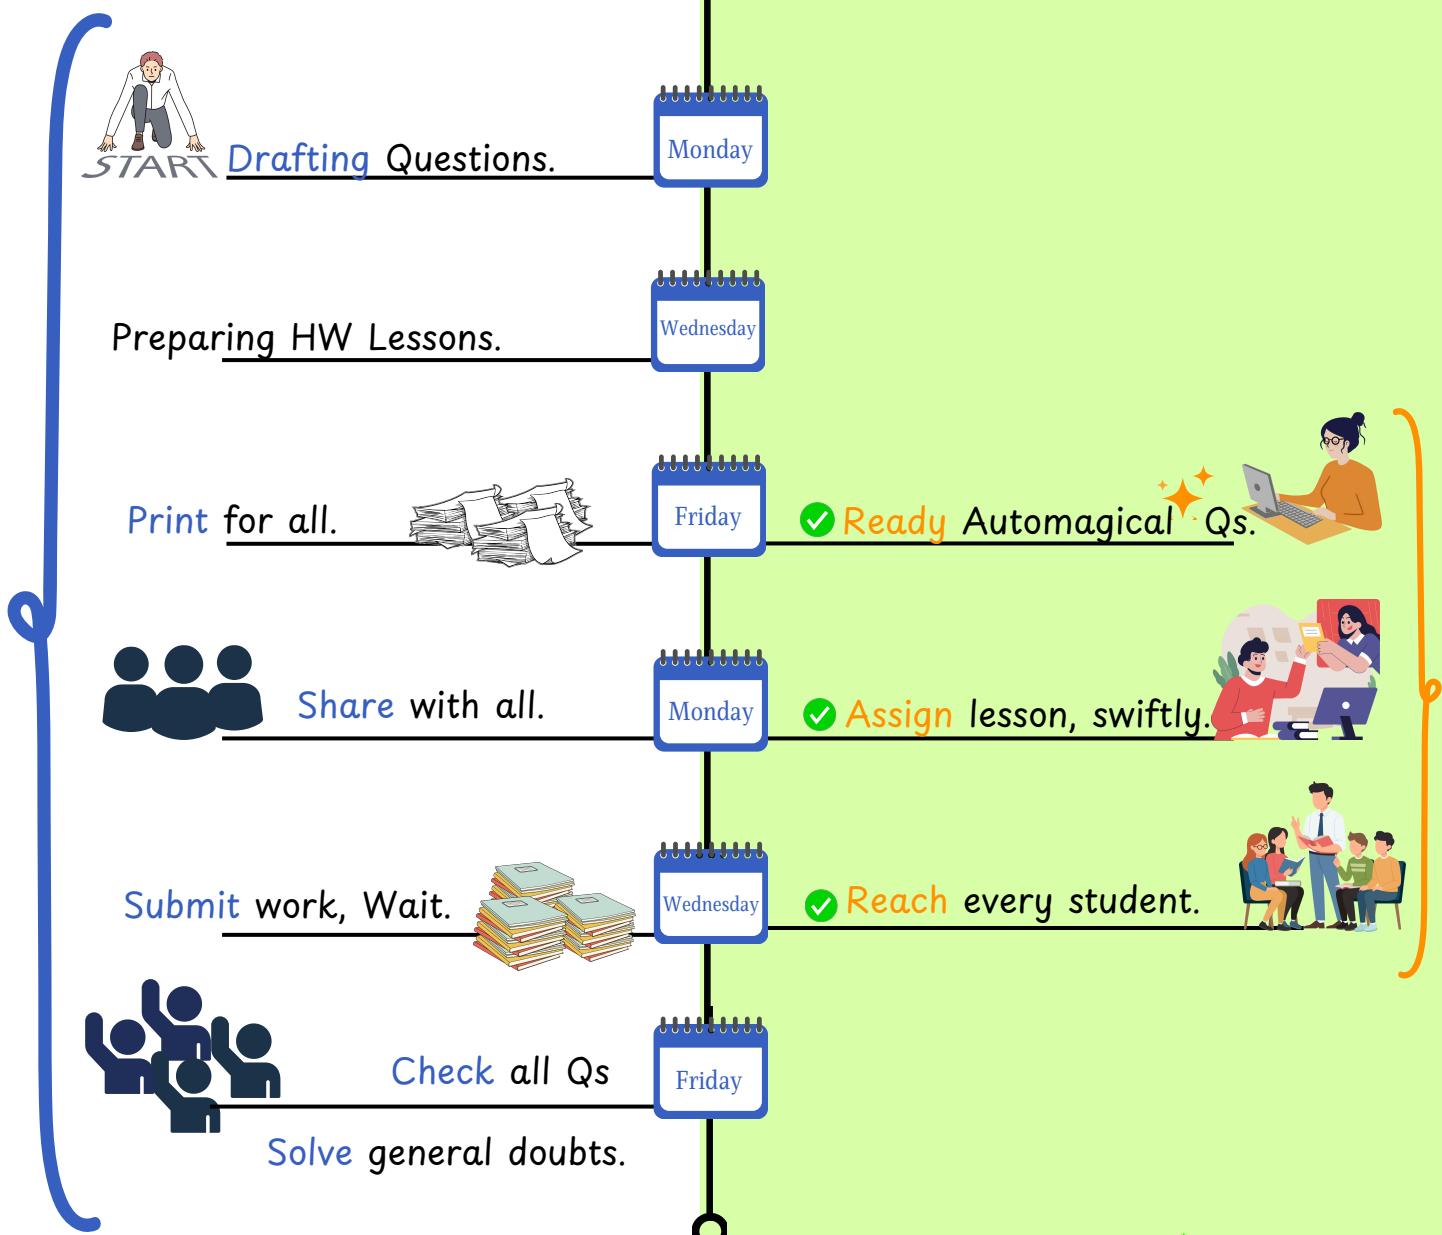

Kaabila.me

For Building Confident Learners

Routine Work Approach

The Kaabil Difference

Let's take a deeper look.

The Reality Check

IN THE CLASSROOM

Unasked questions stifle learning.

Videos not necessarily deep understanding.

Marks alone don't address students' learning needs.

FOR A TEACHER

1 Overloaded with manual tasks.

2 Generic class discussions over targeted problem-solving

3 Difficult to provide equal revision guidance for all

WHEN STUDYING ALONE

1 Direct answers replace problem-solving thought process

2 Small doubts create big logical gaps

3 Classroom pace hinders individual's own progress

We see a better way forward.

Teachers Side

PRIORITY

Today's Goals

TO - CHECK

- VI Math Test
- VIII Exam Science
- VII MCQ Math

TO - PREPARE

- HW Questions VI
- Daily Sheet VIII
- Test Science VIII

TO - RESOLVE

- VIII Test
- VI Homework
- VII Daily Practice

Try Again (10 CP) Finish Lesson

Black Board

You missed a step!

Substitute "y" value in equation (ii).

$x - y = 3$

$\Rightarrow x = 3 + 0.6$

Or, $x = 3.6$

★ Generate multiple practice sheets instantly.

★ Receive resolution to each small question.

✿ Varied, personalized approach.

✿ Fast, accurate, consistent Result.

= Teach without extra tasks after every class.

Kaabili is for all the tedious work behind the scenes.

QUESTION SOLVING ROUTINE

CURRENTLY

MCQ

Q. A cone has a radius of 5 cm and a slant height of 13 cm. What is its curved surface area?

- a) 65 cm^2
- b) 130 cm^2
- c) 260 cm^2
- d) 160 cm^2

YOUR ANSWER WAS WRONG. 

WAYS TO RESOLVE

ANSWER KEY.

- 1. b) 130 cm^2
- 2. c) 23 cm^2

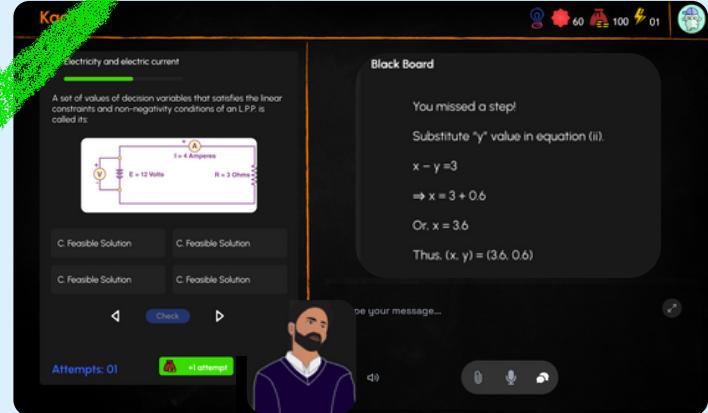

WATCH THE VIDEO TO UNDERSTAND.

INTRODUCING

Kaabila.me

The screenshot shows a mobile application interface. At the top, there's a navigation bar with icons for profile, notifications, and search. Below it, a large green checkmark is overlaid on the screen. The main content area displays a math problem: "A set of values of decision variables that satisfies the linear constraints and non-negativity conditions of an LPP is called its...". It includes a circuit diagram with a battery (E = 12 Volts), a resistor (R = 3 Ohms), and an ammeter (I = 4 Amperes). Below the question are four options: C. Feasible Solution, C. Feasible Solution, C. Feasible Solution, and C. Feasible Solution. To the right, there's a "Black Board" section with text: "You missed a step! Substitute 'y' value in equation (ii)." followed by a worked-out solution for a system of equations. At the bottom, there's a video player with a play button and a progress bar, along with a message input field and a camera icon.

Learning that fluctuates

Consistent Learning

EMPOWER INDEPENDENT LEARNING

provide early intervention

Open Source
Customisable
AI

Step-by-Step Guidance

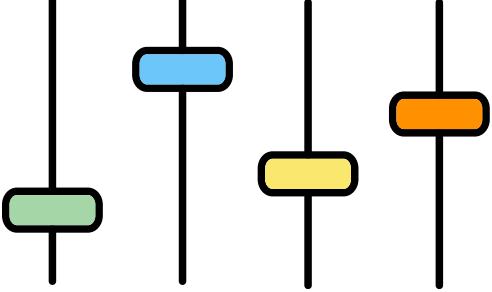

Encouraging Self-Correction

Deep Concept Reinforcement

Giving learners space to practice Let learning never stop!

Additional Benefits

KAABIL'S DETAILED INSIGHTS

SCORES- FORMAT

1. the percent of top score
2. number of incorrect answers.

We See the
What Happened?

GRADE SHEET

1	Ananya	22/30	A ⁺
2	Nakul	18/30	B
3	Ram	14/30	B

Shifting focus from only marks and performance summaries.

LEARNERS DASHBOARD

1. Granular breakdown of each attempt, errors in class.
2. Tracks response times, for each question and provides personalized recommendations.

We Need to see
How and Why behind?

Pinpointing common lags, trends, and doubts

Offering personalized in depth analysis for class and individuals

Knowing there's a problem ≠ Knowing how to solve it.

Our Solutions

+ AI Question Generation

Generate similar questions instantly to match your curriculum

PDF to CBT

Convert any PDF or Xerox into a custom Computer-Based Test also generate same questions, like the ones shared.

Easy Homework Sharing

Teachers can instantly generate and share homework to each class

24/7 Doubt Support

Students may ask their doubt in each question anytime in English or Hindi

On-Demand Questions for each lesson

Curate endless, personalized practice questions FOR HomeWork and Sheets

Targeted Revision

Get specific tips for every question via attempt analysis
